# Clorox™ Alexa Large Room True HEPA Air Purifier

### When it counts, Trust Clorox™

This large room smart air purifier will help provide protection from harmful allergens, pet dander, and dust as well as captures 99.9% of viruses & bacteria from the air.\* Breathe easier knowing 99.97%\*\* of allergens and particulates are being captured into a three-part filtration system.

### Connected Technology

Control your air purifier by using the Alexa® App and Voice Integration services. Make air purification a daily routine in the Alexa app so it will keep your air clean all day long. Once paired you can use simple voice commands to turn your air purifier on or off, control fan speed, check indoor air quality from another room and find out when your air filter needs replacing. Get automatic filter replacement using Amazon's Dash Service so you never have to worry about running out.

### Three Part Filtration

The 360° filter captures particulates and reduces Volatile Organic Compound (VOCs) and unpleasant odors in multiple layers to deliver cleaner air to the room. The pre-filter, True HEPA filter and active carbon filter all work together to remove particles as small as 0.1 micron and larger in rooms 320 – 1,500 square feet. Includes one Clorox™ filter that lasts 6-12 months.\*\*\*

### Color Coded Air Rating Indicator

Know exactly the level of air quality you breathe with real time feedback. The lighted display will tell you when the air is good, moderate, unhealthy, or hazardous so you can adjust fan speeds based on air quality.

### Sleep Easier

Get a good night's sleep by using the Whisper Quiet™ setting. Sleep undisturbed by selecting fan speed one and turning off the screen and air quality lights.

### Variable Fan Speeds and Programmable Settings

Customize air purification to a room or a season with four different fan speeds and three timer options. When fan speed is set to the highest setting (four), the air purifier will change the air in a 320 square foot room five times per hour or one time an hour in a room up to 1,500 square feet.† For optimal air quality it is recommended to set the air purifier to AUTO mode to continuously clean the air and adjust fan speed based on the air quality.

\*Reduction of viruses and bacteria as air passes through the True HEPA filter. Based on independent testing results of MS2 virus and Staph aureus in a 1007 Ft(3) test chamber. 99.9% of MS2 virus was captured in the after 20 minutes and 99.9% Staph aureus was captured after 30 minutes of operation on the highest fan speed. Does not kill viruses or bacteria. Not tested with Covid-19, SARS-COV-2. Reduction rate will potentially vary by fan speed, humidity level, room shape and size, variations in air quality, and/or placement of the unit in the room. No guarantee all the air in a room will pass through the True HEPA filter. \*\*99.97% effective in capturing particles as small as 0.1 microns that enter the True HEPA filter. \*\*\*Cleaning effectiveness and filter life vary by air quality. †Based on independent CADR testing, when operating on highest fan speed. Suggested room sizes assumes closed room with 8 ft. ceiling.

\*\*99.97% effective in capturing particles as small as 0.1 microns that enter the True HEPA filter.

## DETAILS

Model: Clorox™ Alexa Large Room True HEPA Air Purifier (11011)

MSRP: \$169.99

Filter Replacement (12010) MRSP: \$59.99
