Clorox™ Tabletop True HEPA Air Purifier

When it counts, trust Clorox™

This small room air purifier will help provide protection from harmful allergens, pet dander, and dust as well as reduce viruses and bacteria from the air.* Breathe easier knowing 99.97%** of allergens and particulates are being pulled into a two-part filtration system.

Two-Part Filtration

The 360° filter captures air particles and allergens with a double layer of protection. The pre-filter and the True HEPA filter work together to remove particulates as small as 0.1 micron or larger in rooms between 80-200 square feet. Includes one Clorox™ filter that lasts 6-12 months.***

Sleep Easier

Get a good night's sleep by using the Whisper Quiet™ setting and selecting your desired night-light brightness of bright, dim or off.

Programmable Settings

Customize air purification to a room or a season with three different fan speeds and three timer options. When the fan speed is set to the highest setting, the air purifier will change the air in a room 80 square feet five times an hour or twice per hour in a room up to 200 square feet.†

*Reduction of viruses and bacteria as air passes through the filter. Actual % of reduction varies. Does not kill viruses or bacteria. **99.97% effective in capturing particles as small as 0.1 microns that enter the True HEPA filter. ***Cleaning effectiveness and filter life vary by air quality. † Based on independent CADR testing, when operating on highest fan speed. Suggested room sizes assume closed room with 8 ft. ceiling.

**99.97% effective in capturing particles as small as 0.1 microns that enter the True HEPA filter.
